

INTRODUCING THE
ECO1
11 LITRES PER MINUTE

On-site and on demand, these wall mounted Eco1 units, dispense highly effective, yet safe Aqueous Ozone.

for MID TO LARGE SCALE USE LOCATIONS

NATURALLY POWERFUL. NATURALLY SAFE. NATURALLY MADE.

Aqueous Ozone has been proven to kill **>99.999%** of the most common bacteria and viruses in just 30 sec, without using harsh chemicals. More effective than traditional cleaners and sanitisers, these AO Water units deliver an endless supply of an all-natural and safe oxidising agent.

BENEFITS TO USER	SYSTEM FEATURES
Sanitises, Cleans and Deodorises all Surfaces	On-Site, On-demand Generation of Ozonated Water
No Chemicals to Purchase, Store and Use	Delivers a >99.999% Reduction of most Common Bacteria/Viruses
Up to 80% Savings of Budget for traditional Cleaning & Sanitising Agents	Compact, Modular Unit weighs just 7.2kg
Safe, Effective, Economical, and Sustainable	Dimensions of 38cm x 15 cm x 41cm
EPA Registered and Regulated	Volumetric Rate Flow of 11 Litres Per Minute
Exceeds World Health Organisation Standards as a Sanitising Agent	Simple Installation
	Two-year Product Warranty

NATURALLY POWERFUL. NATURALLY SAFE. NATURALLY MADE.

AQUEOUS OZONE ON DEMAND

TECHNOLOGY

NATURALLY POWERFUL. NATURALLY SAFE. NATURALLY MADE.

Ozoklenz's Aqueous Ozone technology simply converts potable water into ozonated water. This highly oxidised water is a powerful antimicrobial agent that safely and effectively inactivates most bacteria and viruses at >99.999% in less than 30 seconds. Aqueous Ozone is also a very versatile solution that can be utilised to clean and deodorise in any environment

WHAT IS AQUEOUS OZONE?

In nature, ozone is formed by lightning causing an ordinary oxygen molecule (O₂) to split into two oxygen atoms (O), which rejoin the ordinary molecules (O₂) to form Ozone or O₃.

Ozone can also be synthesised or man-made by combining an electrical charge with oxygen creating O₃ which is infused into water. Thus, the term Aqueous Ozone.

Our EPA registered technologies allow our customers to safely and effectively sanitise, clean, and deodorise any environment without the use of chemicals

WHAT ARE THE BENEFITS OF AQUEOUS OZONE?

Generate an Endless Supply of a Safe, yet Highly Effective Sanitiser and All-purpose Cleaner
Saves up to 80% in Monthly Costs for Traditional Chemical-based Cleaning/Disinfecting Agents
Produces On-site, On-demand Ozonated Water at about 1 penny per litre
No Chemicals to store, mix, transport, handle, dispense, etc
No PPE Requirements for staff or other personnel to dispense and apply the ozonated water
Unique, Patented Technology
Inactivates Viruses and Bacteria with efficacy of 99.999% in 30 seconds or less
