

Using the Ozoklenz Unit in 6 Easy Steps

1
On/off switch to start and stop the dispensing of aqueous ozone.

2
Pressure gauge to ensure water pressure is sufficient.

3
Hose used to dispense the aqueous ozone into bottle, buckets or machines.

01	02	03	04	05	06
	Switch on your water supply.		Use hose to fill up buckets or bottles.		Switch off your water supply.
Place hose into bucket or sink.		Switch on the Ozoklenz Unit.		Once done switch off the unit.
