Using Ozoklenz ECO3 in 4 Easy Steps

01	02	03	04
Charge the device using the USB-c cable provided. Charging to 100% takes 2-3 hours and runtime per charge is ~60 Minutes with continuous use	Once fully charged, unscrew the water reservoir by simply turning it anti-clockwise, and fill with standard tap water.	Re-connect the water reservoir ensuring that it is aligned with the spray head. Do not force it shut or over-turn to close as this will cause damage.	Press the activation button for aqueous ozone to be released 'on-demand.'
